**FOR IMMEDIATE RELEASE**

## NEW I-10 PAVING PROJECT FROM LA COUNTY LINE TO MILLIKEN

**Ontario** – The California Department of Transportation (Caltrans) will begin paving work on I-10 between the Los Angeles County line and the Milliken Avenue overcrossing in the cities of Montclair, Upland and Ontario on October 4, 2004. The work on this 9.2-mile project includes grinding the existing concrete and replacing deteriorated pavement slabs at various locations in both directions. In addition, the contractor will grind and resurface the Monte Vista Avenue off-ramp and the Euclid Avenue interchange ramps.

The project will begin Monday, October 4 at 8 PM and break for the holiday season on November 19, 2004. The project will resume on January 3, 2005 and continue for approximately five months. The holiday season hiatus is intended to minimize the impact of the project on local businesses and help motorists at that busy time of year.

All work will occur during off-peak hours to reduce the impact to the motoring public. Caltrans will monitor traffic during construction and adjust the contractor's schedule as necessary. Beginning Monday and for the next two weeks, the contractor will be working in the westbound direction from Milliken for four miles or less, and will leave three lanes open to traffic. No two consecutive ramps will be closed at the same time. The contractor will not work on Friday, October 8.

General project hours are:

I-10 Eastbound: 10 PM to 7 AM Monday through Friday  
I-10 Westbound: 8 PM to midnight on Mondays  
8 PM to 5 AM Tuesday through Thursday  
10 PM on Fridays to 5 AM on Saturday mornings

Caltrans thanks motorists for their patience and cooperation during this project, and reminds everyone to SLOW FOR THE CONE ZONE.
